THE IMPACT OF YOUR GIFT

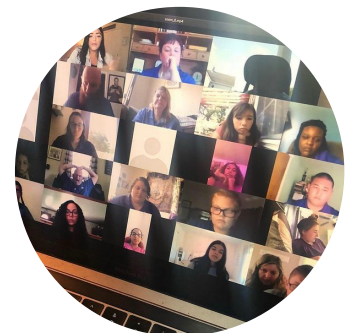

Education Fund - Benevolence (Glassboro, NJ)

One of our local student's mother died in February of 2020 and currently lives with his grandparents. They didn't have the funds to purchase a laptop. When his need came to Fearless Movement, we provided a brand new computer and supplies that matched his needs for school. It's now coming to the end of the semester and he sent us a thank you text that shared: "I have three high A's of 100% and the remaining two A's are a 97% and 94%. We are in week 10 out of 15, and this computer has played a vital role in helping me pursue and finish my degree! Thank you so much." - Jay Wright

Leadership, Self-esteem, and Character Workshops - Mental Health Advocacy

"This was just what my students needed! After almost a year of online learning with their teachers and diligently attending my youth development course, our participants needed a change. Something to keep them going at a time where cyber-bullying and the mental health crisis are at an all-time high. To bring hope, acknowledging the hard times and pain, and showing them how to overcome and better their quality of life. It was the spark they needed. I was happy they felt comfortable enough to share their own stories, and open up about what they were going through mentally."

- Lori Thesauro (NJ Personal Responsibility Education Program in Camden, NJ)

Free Access to the Arts - Support Services

"Kian received his first Art Empowerment package from Fearless Movement in 2018 when he was eleven. Ashley had heard that he was struggling with seizures and that it was his birthday. He loved it! First of all, he enjoyed going through all of the surprises and feeling so special! He chose a different project to focus on each day, was able to take an hour a day to destress and not think about the seizures that had been constant during that time. He has received many throughout the years to help in times of need. The free art empowerment packs do just that - They empower the one receiving and gives them the opportunity to take a step away from the chaos of their life to discover healing in their creative outlet."

- Maureen Prohowich, Mother of Kian and Community Member.
